TRANSFER, EMBROIDERY & DIRECT PRINTING

- There are many possibilities, the choice is yours

The effect of Corporate Wear increases significantly, when the company logo has been applied to it. It is not necessarily expensive or time consuming to apply profile print on your clothing. ID® offers the application of transfers, embroidery and direct printing – even for small quantities. We guarantee high quality that you can display with pride.

TRANSFER

We manufacture the foil transfer separately and apply it to the textile using a heat press. There are various types of transfers, such as water-based, colourstop, polyamide and digital.

EMBROIDERY

Embroidery gives the garment an extra shimmer of exclusivity and elegance. The sharp colours of the durable polyester thread withstand boiling washing and retain their sheen for most of the textile's service lifespan.

DIRECT PRINT

In direct printing, liquid dyes are printed directly onto the textile. This method offers a high level of detail and colour variation, making it suitable for use on both natural and synthetic textiles.

TRANSFER PRICES

WATERBASED TRANSFER

This transfer type complies with the ISO 15797 demands for industrial washing. The logo has been tested and approved as being a durable transfer ideal for industrial washing. It is particularly ideal for PRO Wear by ID®. The transfer is also much softer and more stretchable than other transfer types, and thus also ideal for stretch fabric and sports clothing.

COLOURSTOP & POLYAMID TRANSFER

Colourstop I This transfer type is suitable for use on polyester materials which have a tendency to bleed through. Colour stop transfers have a blocking on the back which ensures that no excess dyes from particularly red and dark polyester qualities permeate the transfer and change the appearance of the logo.

Polyamid I Polyamid has the disadvantage that it becomes shiny if exposed to excess heat. However, this transfer has the advantage that it can be applied at low temperatures to avoid distinct, shiny pressure areas on the nylon material.

DIGITAL TRANSFER

For logos with many shades, transitions and small details, digital transfer is the perfect choice. The transfer is applied digitally to obtain the best photographic reproduction of the logo or picture.

EMBROIDERY PRICES

LOGO EMBROIDERY

Embroidery will often be the best option to give a garment – such as a shirt or jacket – a finishing touch of exclusivity and elegance. An embroidered logo has sharp colours that do not fade in the wash. It is made from durable polyester thread suitable for washing on a hot cycle and retains its sheen for most of the garment's lifespan.

STANDARD POSITION OF PRINT

ID® SERVICE REFERS TO THE GENERAL TERMS AND CONDITIONS OF SALE AND THE CONDITIONS FOR ID® SERVICE BELOW

1. ID® Service will not be liable in any way for erroneously produced labels and transfers if the client has approved the proof prior to production.
2. ID® Service will not be liable for loss or damage to property such as originals, materials etc. which are not ID® Service property but are left with ID® Service by the client for the purpose of carrying out a particular project. However, ID® Service will be liable if it is shown that the loss or damage was due to gross negligence by ID® Service. The client is responsible for insuring such objects against damage or loss.
3. ID® Service will not be liable if the client lacks entitlement to reproduce, duplicate or publish print, images, drawings, illustrations, text, trademarks or brand names which may be subject to third-party rights.
4. ID® Service is not liable for the client's operating losses, loss of profit or other indirect losses in the event of delays.
5. The client has a duty to inspect the received products and notify ID® Service of any faults within 8 days.
6. ID® disclaims all right of complaint on transfers and labels which have been delivered from an external supplier, on which there may subsequently be complaints related to printing and affixing.
7. ID® Service will only fit labels and transfers to ID® products.
8. ID® Service fits labels and transfers in accordance with the washing instructions. Labels and transfers must therefore be able to handle the same washing temperatures as the clothing that they are fitted to.
9. ID® Service disclaims all liability for damage and faults resulting from incorrect washing or drying, in relation to both clothing, labels and transfers.
10. ID® Service recommends that applied labels and transfers should not be ironed or heated in any other way.
11. All files received by ID® Service for processing must be received in a vectorised file format – EPS, AI, PDF or CDR. If files are not provided in this format, ID® Service will charge an administration fee of EUR 55.- per hour or part thereof for drawing work.
12. ID® Service assumes that the placement of prints may deviate by up to 1 cm.
13. ID® Service offers to maintain stocks of transfers, labels, chips and badges for up to one year. Transfers and labels will be invoiced on ordering.
14. Minimum start-up quantity of 300 pcs for ID® Service to stock transfers and labels.
15. Please inform about size of and number of colours on the logo, quantity, position of the logo and to which ID® article the logo should be applied.
16. Shipment max 14 days upon approval of proof. On receipt of transfer from third-party, shipment will take place within max 7 days.

ID'S GENERAL TERMS OF DELIVERY AND PAYMENT

- Prices: All prices in the service price list are nett prices in EUR excl. VAT.
- Quantity prices: All quantity prices apply at purchase of articles in same colour.
- Transfer: ID® waives all right of complaint on transfers that have been delivered from an external supplier, on which there may subsequently be complaints related to transfers and application.
- Delivery: Ex warehouse
- Service fee: A fee of EUR 5.50 will apply to orders below EUR 110.-
- Payment: Interest at the rate of 1.5% per month will be charged on overdue payments.
- Complaints: Visible flaws/damages must be written on the freight document immediately on delivery, whereafter this must be sent to ID® Identity. All other complaints must be made within eight days after receipt of the goods.
- Returned goods: After ID® Identity has submitted an order confirmation to the Buyer, the Buyer will not have the right to change or cancel the order.
- Online return: If the Buyer chooses to return, the Buyer is obligated to return the Delivery in its original, unbroken, undamaged and unmarked packaging. The Buyer is also obligated to pay all the associated costs. If ID® Identity accepts the items upon receipt, the returned items will be credited. Items with an invoice date older than 60 days are not eligible for return.
- Manual return: If the Buyer chooses to return, the Buyer is obligated, by prior written agreement at support@id.dk, to return the Delivery in its original, unbroken, undamaged and unmarked packaging. The Buyer is also obligated to pay all the associated costs. If ID® Identity accepts the buyer's request to return the order, the returned items will be credited with a deduction of 10% of the suggested B2B price. Items with an invoice date older than 60 days are not eligible for return.
- Processed goods: Non-returnable.
- Disclaimer: ID® Identity disclaims liability for any misprints, price changes, sold-out items, tax changes, exchange rate changes or force majeure.
- At request, products may be sent directly to a supplier of prints or embroidery, in which case the recipient is responsible for checking the delivery. Costs for prints and embroidery will not be reimbursed.
